Experienced Company now Managing Luxstone Manor

FOR IMMEDIATE RELEASE

Airdrie, AB
July 10, 2014

Today, the owners of Luxstone Manor are pleased to announce their partnership with the experienced long-term care management company, Extendicare Assist.

As a division of Extendicare (Canada) Inc., Extendicare Assist supports the long term care, retirement, assisted living and supportive living sector by offering operational management and consulting services with partners across Canada and by investing and giving back to organizations and partners that help people live better. Extendicare Assist has partnered with over 20 owners/organizations and supports over 44 seniors living centres with a total capacity of over 5,100 beds. These partnerships include strong, long-term working relationships with major hospitals, municipal governments, not-for-profit organizations, charitable associations, privately owned multiple location chains and single private owner-operator homes.

“We are very pleased to have Extendicare Assist on board,” remarked Karim Daya, ownership group of Luxstone Manor. “Their expertise will allow us to continue providing high quality care for the residents of Airdrie.”

Luxstone Manor is Airdrie's retirement community offering optional assisted living services. This facility was opened in 2009 and offers a variety of amenities that meet the needs of residents while providing health and wellness as well as hospitality services. Their services include dietitian approved and chef prepared meals, weekly housekeeping and linen services, with an array of social entertainment and recreational services.

“We are happy to be teaming up with Luxstone Manor”, commented Paul Tuttle, President of Extendicare (Canada) Inc. “This partnership combines our extensive expertise in operating seniors living centres with Luxstone Manor’s modern facility and comprehensive services.”
